

Publication details of Dr. Nilima S. Naik

Sr. No.	Title of the article
International publication	
1	Asymptomatic Bacteriuria in Diabetic women
2	Bacteriuria in Diabetic Patients
3	Inducible Clindamycin resistance among clinical isolates of Methicillin resistant <i>Staphylococcus aureus</i> .
4	Scalp hair fungal infection in Miraj-Sangali with reference to antifungal susceptibility testing of dermatophytes
5	Study of serum levels of calcium in coronary artery disease and diabetes mellitus
6	Detection of inducible clindamycin resistance among clinical isolates of <i>Staphylococcus aureus</i> in a tertiary care hospital
7	Prevalence and antimicrobial resistance pattern of methicillin resistant <i>staphylococcus aureus</i> (MRSA) strains in tertiary care hospital – a prospective study.
8	Patterns of phenotypic resistance to the macrolide lincosamidestreptogramin-B group of antibiotics in <i>pvl</i> positive <i>Staphylococcus aureus</i> in tertiary care hospital
9	<i>In-vitro</i> Studies of Lectin Specific Changes on Erythrocyte Membrane in Malaria
10	Comparison of conventional phenotypic methods for detection of methicillin resistant <i>Staphylococcus aureus</i> .

11	Evaluation of Panton-Valentine Leukocidin Gene by Polymerase Chain Reaction in community-acquired Methicillin Resistant <i>Staphylococcus aureus</i> .
12	Hospital-based study of methicillin-resistant <i>Staphylococcus aureus</i> in surgical site infections with special reference to determination of environmental and human sources
13	Bacteriological study of surgical site infections in a tertiary care hospital at Miraj, Maharashtra state, India
14	"Performance of chrome agar medium and conventional methods for detection of methicillin resistant staphylococcus aureus."
15	Association Of Virulence Factor (Panton–Valentine Leukocidin) With Mec - A Gene In <i>Staphylococcus aureus</i> Isolates In Tertiary Care Hospital
National publication	
16	A Urinary tract infection in elderly.
17	Study of Urinary Tract infection in children
18	<i>Trichophyton violaceum</i> - a major cause of <i>Tinea capitis</i> in tertiary care hospitals and its antifungal susceptibility testing
19	<i>Tinea capitis</i> Infection in Children Along with Tertiary care Hospitals With Reference to <i>In vitro</i> Antifungal Susceptibility Testing of Dermatophyte Isolate
20	Study of levels of microalbuminuria in coronary artery disease and Diabetes mellitus
21	Study of community and hospital associated MRSA with special reference to inducible clindamycin resistance in tertiary care hospital.
22	Evaluation of Phenotypic and Genotypic Test Methods to Detect Methicillin Resistant <i>Staphylococcus Aureus</i>

23	Effect of Pranayama on Body Mass Index in Young Medical Students
